

Interstate: limited access, part of the Dwight D. Eisenhower interstate system; federal-aid eligible and automatically National Highway Performance Program eligible.

Other freeway: limited access with features of interstate, but not part of Eisenhower interstate system; federal-aid eligible.

Other principal arterial: connecting routes between cities and the most heavily-traveled cross-city routes within urbanized areas that encourage mobility and commercial traffic; federal-aid eligible.

Minor arterial: shorter trip distances, less traffic, and more local in nature than other principal arterials; federal-aid eligible.

Major collector: routes which funnel traffic from local and minor collector routes to arterials; federal-aid eligible.

Minor collector: routes with more through traffic than local roads but not as heavy as major collectors; conditionally federal-aid eligible.
